Read Me

Preinstallation :

Project is done completely in python. Some python libraries that has been used need to be installed before importing them like "tkinter" , "matplotlib".

remaining libraries are available inbuilt with python and need not to install separately like datetime , csv, os , random and webbrowser

How to install all these :

Update the packages list and install the prerequisites for python3 (commands on terminal)

sudo apt update
sudo apt install software-properties-common

how to install python (specifically python3.7) :
sudo apt install python3.7

how to install tkinter library :
sudo apt-get install python3-tk

how to install matplotlib :
python3 -m pip install -U matplotlib

Essential Files :

00.txt , 01.txt , Admin.txt , Adminfeedback.txt , info.txt , library.txt , libbook.csv And source code file are must to run program .
